REVIEW WITH YOUR TECHNICIAN

Installation Statement of Work

Your installation walk-through · Check off what you review. Initials are optional.

Make the most of your installation

We recommend reviewing the applicable items with your technician while they are on site. Ask questions, practice the steps, and check off what you cover so you feel ready to use your dispenser. Use this optional worksheet to keep a helpful record of your installation walkthrough. Every section, checkbox, and field is optional. Skip anything that does not apply or is not available to demonstrate. You can print a blank or partially completed copy at any time.

Dispenser software training

Check off each item you review · Initials optional

☐	Dispense a standard formula and a manual formula	INITIALS (optional) _____
☐	Adjust formulas	INITIALS (optional) _____
☐	Save formulas in the dispenser software	INITIALS (optional) _____

☐	Color-matching system communicates with the dispenser	INITIALS (optional) _____
☐	Send formulas to the dispenser from color-matching software	INITIALS (optional) _____

Getting the right training

Your paint representative provides primary paint-product, paint-line, color-theory, and paint-manufacturer software training. The installer's training is limited to the dispenser functions listed on this worksheet.
