

MatchRite W20 Series

Dependable color matching at an affordable price

The W20 Series gives you an easy and affordable way to introduce computerized color matching at your paint counter. It lets you reap all the benefits of a high-tech system, at a lower start-up cost. These packages are ideal for lower-volume paint retailers, who want to provide top notch color matching service to their customers. The W20 Series is a complete solution for retail color matching, featuring the RM400, a easy-to-use 45°/0° tethered handheld spectro, and the brand new ColorDesigner® PLUS, a versatile color matching software package. A computer, monitor, and label printer are also available in some of the packages.

+ Value : Quality

MatchRite W20 Series

RM400 Hand Held Spectro

The RM400 spectro brings affordable color matching to your paint business rivaling that of the largest of paint retailers. The RM400 offers 0/45 degree measurements allowing for accurate measurement of reflective, smooth rough and woven surfaces. Using the RM400 is extremely easy. With it's single button operation the RM400 can be used by anyone in your business with very little instruction.

- With ColorDesigner PLUS, color-matching software, the RM400 is a powerful tool for servicing your customers.
- The RM400 will provide years of uninterrupted service and repeatable performance at the best possible price.
- Improves your customer's experience with quality matches your customers can count on again and again.
- Compact, Rugged and reliable
- Sample size ½" or larger
- Virtually maintenance free

ColorDesigner PLUS Software

A customer and retailer friendly color matching software package that produces expert results ColorDesigner PLUS expedites and refines the paint selection process, eliminating wasted effort, needless formulation errors and connects to any paint dispenser. And it allows you to mix your customer's colors in the paint product they want. With one efficient package, your paint department becomes a color design center.
