

Dear Customer,

Thank you for your recent purchase of an automatic colorant dispensing system from Fluid Management!

In an effort to ensure that you receive what you have been promised, and paid for, please print out and have available this sheet for reference as you are going over the final completed job with your installer. DO NOT sign for the completed installation until the below items have been accomplished and demonstrated to you to your satisfaction.

By signing for your installation on the technicians paperwork, you are agreeing that the below items have been accomplished and demonstrated to your satisfaction, and that any return trips by a technician for additional training or configuration of the below detailed items could be billable to you at the prevailing rate for service and travel.

You should be instructed on the following:

---

### **If using Color Pro or other dispenser software for dispensing:**

(Check off these items as they are completed)

- ☐ How to dispense a standard and manual formula
- ☐ Procedure for adjusting formulas
- ☐ How to save formulas on Color Pro
- ☐ Procedure for filling colorant and adjusting levels
- ☐ Demonstrate Performing daily maintenance items such as purging and cleaning nozzles
- ☐ Explain agitation procedures on dispenser
- ☐ (Where Applicable) Printing labels
- ☐ (Where applicable) How the barcode scanner works and demonstrate it working

---

### **If using color matching software for for operating dispenser and dispensing:**

(Check off these items as they are completed)

- ☐ How to dispense a standard and manual formula
- ☐ Procedure for adjusting formulas
- ☐ Procedure for filling colorant and adjusting levels
- ☐ Demonstrate Performing daily maintenance items such as purging and cleaning nozzles
- ☐ Explain agitation procedures on dispenser
- ☐ (Where applicable) How the barcode scanner works and demonstrate it is working

---

## If sending formulas from a color matching system to Color Pro or other dispensing software for dispensing:

(Check off these items as they are completed)

- ☐ Color Matching system communicates with dispenser(s)
- ☐ How to send formulas to dispenser(s) from color match software

Primary training for paint products, individual paint lines, color matching, color theory, use of software programs provided by your paint manufacturer (aside from the functions itemized above related to dispensing), and product use recommendations are to be provided by your stores paint representative.
